Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-27, drawn to a method of receiving an insurance claim that includes patient information, insurance information, and treatment information from the client computer, determining whether the insurance claim is eligible for advance payment, including performing the acts of determining whether the treatment information corresponds to health care services that are approved for payment, and determining whether the patient is an approved beneficiary of the carrier, and transmitting claim information associated with the insurance claim to the payment entity, wherein, upon receiving the claim information, the payment entity advances money to the health care provider prior to the carrier making payment on the insurance claim, classified in class 705, subclass 4.
 - II. Claims 28-35, drawn to a method for receiving from the payment entity a fund distribution request, advancing money to at least one account in response to the fund distribution request, wherein at least a portion of the money advanced into the at least one account is immediately accessible to the health care provider, and receiving payment for the insurance claim from the carrier, classified in class 705, subclass 39.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a computer implemented system or method for writing an insurance policy or processing an insurance claim. Invention II has separate utility such as a computerized arrangement for transferring funds by debiting one account and crediting another by the same amount. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
